### **DETAILED ACTION**

Applicant's election without traverse of Group III (claims 1 to 11 and 40 to 45), filed 3/28/05, has been acknowledged.

Claims 12-39 have been canceled.

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-11, drawn to a microfeature device package system, classified in class 205, subclass 89.
- II. Claims 40-45, drawn to a method for assembling a microfeature device system, classified in class 451, subclass 41.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as being positioned differently in the assembly system. See MPEP § 806.05(d).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
